

SurgeShield is a high-quality surge protection device that offers reliable protection for both RS485 communication lines and power Line. Designed specifically for industrial and commercial applications. The Power Supply provided is the ideal for protecting sensitive equipment from the damaging effects of power surges and other electrical disturbances.

Multiple RS485 Ports are provided to connect Inverters, Multifunction meter and Sensors

Surge Protection

- RS485 line
- Power Line

Power Supply

- 12V DC, 2A
- For Logger and Sensors

Over Current Protection

- 6 A MCB

Enclosure

- IP65
- Multiple Ports for RS485 and Power

Technical specification:

Input : 230V AC

MCB : 6C

RS485 SPD : 7.5V, 75mA, Surge 150V

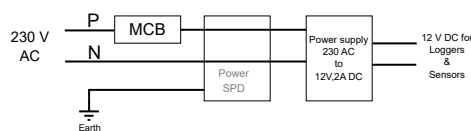

Power SPD : 255V

Power Supply : 12V, 2A DC

Size : 180 X 270 X 100 mm

Internal Connections:

Power protection

RS485 protection
